Case Study: Productivity and Customer Service

Altius IT increased productivity at a mid-size firm by a documented 30% while improving communications with customers 12%.

Client Situation

A mid-size company needs to increase productivity and automate many of the processes currently in place. With the growth of the company, internal network speeds are grinding to a halt and electronic messages are difficult to send and receive with the main office.

Altius IT Solution

- Altius IT's *Manage IT* service installs new servers and upgrades network.
- Using our *Integrate IT* services, Altius IT configures a high speed secure T-1 line to provide e-mail and Internet access.
- Our *Secure IT* service protects the company from Internet intruders.
- Altius IT's *Maintain IT* service keeps the firms equipment operating at peak efficiency.

Client Benefit

Company-wide productivity is increased by a documented 30%. Communications with the head office and customers is improved 12%.

Employees no longer experience delays when accessing documents. A file management system on the server provides restricted employee access to documents.

We Help Businesses Succeed

Altius IT provides your organization with an exceptional five star level of service. Coupled with our in-depth experience, we ensure that your business receives enhanced services and increased performance.

As a leading information technology (IT) resource, our track record of helping businesses succeed is featured on *MSNBC* and in over 40 publications including *The Wall Street Journal*, *Business Week*, *the Los Angeles Times*, and *USA Today*.
