Case Study: Remote Connectivity

An organization with many remote offices is no longer competitive and manual consolidation of information is costly and time consuming.

Client Situation

A large organization had difficulty consolidating information from their 20 remote offices. The organization was no longer competitive and the costs to manually consolidate information were escalating. Remote locations complained of problems getting the information to the head office. Some locations were on dial-up connections while others had high speed connectivity with no security in place.

Altius IT Solution

Altius IT's *Manage IT* service designed and developed a network infrastructure capable of supporting the current and anticipated transaction volumes. Our *Integrate IT* service provided high speed Internet access to the organization's remote locations. Our *Secure IT* service provided secure Virtual Private Network (VPN) connectivity to the remote offices. Our *Configure IT* service provided customized support services for the local and remote offices.

Client Benefit

The organization was able to reduce costs by eliminating the need to manually consolidate transactions. The organization enhanced its competitiveness through more timely information. The company receives timely support, increased efficiency and reduced costs.

We Help Businesses Succeed

Altius IT provides your organization with an exceptional five star level of service. Coupled with our in-depth experience, we ensure that your business receives enhanced services and increased performance.

As a leading information technology (IT) resource, our track record of helping businesses succeed is featured on *MSNBC* and in over 40 publications including *The Wall Street Journal*, *Business Week*, *the Los Angeles Times*, and *USA Today*.
