### Total IT Assessment

Altius IT's assessments identify the areas that deliver the most value for your organization. By identifying and quantifying IT related strengths and weaknesses, we deliver bottom line results. Altius IT's assessments include:

- **Network assessments**
- Security assessments
- Penetration assessments
- Web application and database assessments
- Web site assessments
- Risk assessments

Pick one assessment a combination of any of the above. Our Total IT Assessment is a comprehensive review of your technology, people, and processes and includes all of the above assessments.

### We Help Businesses Succeed

As a leading information technology (IT) resource, our track record of helping businesses succeed is featured on *MSNBC* and in over 40 publications including *The Wall Street Journal*, *Business Week*, *the Los Angeles Times*, and *USA Today*.

### Network Assessments

Our network assessment helps manage IT related risks. We review your computer hardware, software, and related environment and procedures. Our network assessment is ideal for:

- Ensuring system reliability and integrity
- Emerging and fast growing firms
- IPO ready organizations
- Organizations concerned about security
- Businesses with geographically distributed offices
- The financial and health care industries
- Working with the government or large institutions
- Organizations that share and collect personal and/or proprietary data

### 50 Point Work Plan

Altius IT's network assessment is customized to your specific needs. Our services review and analyze 50+ different subject areas including:

- *IT systems* - hardware, software, and external services
- *People* - internal and external IT resources
- *Processes* - policies, procedures, and guidelines

Our analysis includes a review of your network and server equipment, scalability, performance, connectivity, backups, electronic communications such as e-mail and instant messaging, software licensing, software patch management, portable computing devices, and many other areas.

Our services include a review of your packaged and custom software change management processes. We also review your employee handbook, policies on the use of information systems, and related documentation.

In addition to the IT infrastructure, our Work Plan includes interviews with IT, management, and key users to determine if there is an alignment or satisfaction issue with the IT department.

### Deliverables

Our deliverables include a report of our findings as well as recommendations, costs, and a prioritized Action Plan. The entire Work Plan takes from one week to as long as three months, depending upon the scope.
