ALTIUS IT'S ASSESSIT™ RISK ASSESSMENTS CREATES PLATFORM FOR GROWTH FOR MID-SIZE ORGANIZATIONS

Altius IT's AssessIT™ risk assessment services provide mid-size organizations with complete visibility into their information technology systems and processes to help support growth and secure large contracts.

Santa Ana, CA – Altius Information Technologies has recently launched AssessIT™ Risk Assessment services to help mid-size organizations actively manage their IT risks to promote and support growth.

"Mid-size firms are in a unique situation. They are growing rapidly while at the same time trying to build an infrastructure and systems to support that growth. In most cases, current systems and processes in place pose significant risks to providing a stable platform for growth" explains Altius IT Managing Principal Jim Kelton.

"Mid-size firms who want to work with large customers are finding that large customers are asking for more comprehensive risk management actions and third party audits" explains Altius IT President Jim Kelton. "We're finding that those organizations that take a proactive risk management approach are in a far better position to secure contracts with large customers."

AssessIT™ Risk Assessments were created by Altius IT based on 25 years of business experience in assessing risk for Fortune 500 companies, Forbes 400 members, U.S. government agencies, foreign governments, start-up companies and privately held companies with revenues from $5 million to $500 million. "AssessIT™ has been helping CEO's grow their organizations and secure large contracts" says Mr. Kelton "We're proud of that."

Altius Information Technologies, Inc. is a risk management and security assessment firm that provides comprehensive risk assessment services that focus on all three critical risk factors including technology, people and process. In addition to focusing on all critical risk factors, Altius IT provides risk analysis and customized, prioritized risk response plans to ensure complete and effective risk management for client organizations. Altius Information Technologies, Inc. is headquartered in Orange County, CA.
