**ALTIUS IT'S SAFE BANK™ RISK ASSESSMENTS OFFER SIGH OF RELIEF FOR
FINANCIAL INSTITUTION CFO'S**

Altius IT's SafeBank™ risk assessment services provide financial institutions with complete visibility into inherent risks in information technology systems and processes.

Santa Ana, CA – Altius Information Technologies, Inc. has recently launched SafeBank™ Risk Assessment services to help banks and financial institutions actively manage their IT risks.

“Financial institutions are taking a serious look at risks inherent in information technology systems and procedures. They’re beginning to understand that systems audits conducted in the past just aren’t comprehensive enough to cover the myriad of new technology risks that can threaten their financial institution assets” explains Altius IT Managing Principal Jim Kelton.

“SafeBank™ is the first financial institution assessment of its kind that offers comprehensive and complete visibility into a financial institution’s unique risks” says Mr. Kelton.

SafeBank™ Risk Assessments were created by Altius IT based on 25 years of business experience in assessing risk for Fortune 500 companies, Forbes 400 members, U.S. government agencies, foreign governments, and regional and national financial institutions including JP Morgan, Citibank, Washington Mutual, Bank of America, La Jolla Bank, etc.

“Our proprietary process has been built through decades of working with financial institutions. We realize that their unique needs require a different approach than what has previously been done. SafeBank™ has been letting bank CFO’s sleep better at night” says Mr. Kelton “We’re proud of that.”

Altius Information Technologies, Inc. is a risk management and security assessment firm that provides comprehensive risk assessment services that focus on all three critical risk factors including technology, people and process. In addition to focusing on all critical risk factors, Altius IT provides risk analysis and customized, prioritized risk response plans to ensure complete and effective risk management for client organizations. Altius Information Technologies, Inc. is headquartered in Orange County, CA.
